

Congratulations to to following players for being selected to the RDLA "A" teams

The coaches would like to thank all participants who tried out for spots on the "A" teams. The high level of competition made the team selection decisions very difficult. The coaches made their decisions based on several factors including individual skill, team or system play, defensive play, work ethic, and rightie vs leftie as each of these factors are very important putting a competitive team on the floor. We are hopeful that the coaches decisions will be respected.

At the "A" level, players are expected to commit their priority to lacrosse over other sporting endeavours. If this is a concern for parents or players, please notify the appropriate coach as committed players are prepared to play.
